It was reported that 65 blocks of streets in town had been resurfaced this fall at a cost of approximately \$40,000. Money for this work was derived from the Coleman Light Company surplus.

It was also reported that the new concrete sidewalk program in town was practically completed with a number of minor adjustments to be made.

The municipal inspectors report was read and showed that the administration of the town was being conducted in an excellent manner.

The police report was read showing that this department had experienced a busy month.

Approval was given for the purchase of a new set of chains for the fire truck. Three representatives of the Canadian Western Natural Gas Company were present at the meeting requesting permission from the council to make a house-to-house survey of the town with a view to finding out how many persons in Coleman would be interested in getting gas service in their homes. Permission was granted to the men to make the survey.

## Grands Whip Maple Leafs 7-5

The Coleman Grands easily whipped the Lethbridge Maple Leafs in their first home game of the season in Big Six Intermediate 'A' Hockey League play, at the Coleman arena on Wednesday, November 15th. A crowd of around 800 witnessed the game and saw the Grands take a 3-1 lead at the end of the first period, outshooting the Leafs 18 to 7.

The Grands faltered a little at the beginning of the second period and the Leafs were quick to take advantage by tying the score 3-3. However, the Grands again came to life and were leading by a score 6-3 at the end of the period.

Grands again outshot the Leafs by 14 to 9.

In the final stanza the Coleman boys were masters throughout the period, outshooting the Leafs 23 to 8, and they increased their lead to 7 goals to 3, with a minute to go when the referee-in-chief allowed the Leafs a goal, although the goal judge ruled no goal — this making the score 7 to 5. The Leafs then tallied their fifth goal with seconds to go in the period on a long shot just inside the blue line. Final score, Coleman Grands 7, Lethbridge Maple Leafs 5.

Shots on goal, by Coleman 55; Lethbridge, 24.

Coleman goals were scored by Martino, Conrad, Belter, Churla, Kryczka with one each, and Barry Fraser with two.

Lethbridge goals, Brooks, Balaz, Murphy and McNeil.

The Coleman Grands will play hosts to Calgary Buffaloes Saturday, November 25 at 8:30 p.m. in the Coleman arena and Great Falls Americans on the 26th in the Coleman arena at 2 p.m.

Both Angelo Gentile, president, and Bill Fraser, manager, of the Grands, are very pleased with the way Coach Vince Bossetti is getting the team in shape and hope to finish first in the league.

## Dogs Pose Problem For Police

Large hordes of dogs running around town in packs are again creating a nuisance and are the cause of many complaints to the police.

The large hordes of dogs gather near the school buildings and besides creating a nuisance are dangerous to the small children.

The dogs are running up and down streets and into local business houses, and this has also been cause of many complaints.

Constable James Koszegl, under orders from Chief of Police Ed Corson has stated that if dog owners do not take immediate action to keep the dogs under leash or attention, the police will have no alternative but to destroy some of the animals and also fine the owners.

The police have stated that the owner or harbinger of a dog must have the animal under immediate attention at all times and if the dogs are found running at large they may be destroyed or the owner charged and fined a maximum of \$100.00 and costs.

## Speed Limit Is Boosted

The speed limit through the Village of Frank has been increased from 25 miles per hour to a maximum of 35 miles per hour according to Village Constable Wilfred Milburn.

The village council saw fit to have the limit increased as it was felt that most residences are on the north side of the highway and there is very little traffic entering the highway from the south.

Village council were also of the opinion that the highway being practically straight through the village, motorists being able to take advantage of the increased speed limit would also exercise more caution.

### SAFE DRIVING WEEK ... DECEMBER 1st to 7th

SAFE DRIVING WEEK is an established national campaign for the promotion of highway safety. Held annually since 1956, it is the only all-Canadian, national highway safety drive sponsored by the Canadian Highway Safety Council. (Other traffic safety campaigns with CHSC sponsorship coincide with parallel campaigns in the United States).

SAFE DRIVING WEEK has always enjoyed the active and valued participation of provincial safety organizations in all provinces as well as federal, provincial and municipal governments and police forces. Also co-operating strongly are the public information media -

newspapers, magazines, television, radio, etc.), the clergy, the legal and medical professions, industry, business, educationists and women's groups, service organizations and many more.

THE AIMS of the campaign are two-fold; to emphasize the responsibility of the motorist and pedestrian, as individuals, in the prevention of highway accidents, and to stress the safety value in driving and walking relaxed, unexcited, unemotional but always alert.

NO ACCIDENTS, NO FATALITIES IN TRAFFIC during Safe-Driving Week would be ideal. The Canadian Highway Safety Council knows it is possible, but only if every motorist, every pedestrian drives and walks as he well knows he should. But since human nature is, to a degree, predictable, the Council expresses fear that **53 people will die in traffic during that week.**

### OF MANY THINGS (By Ambrose Hills)

#### Steaming Ahead

There are indications that very good times are on the way.

I always hesitate to make such predictions because prosperity is never just around the corner for anyone who isn't prepared to go looking. Yet things are picking up rather quickly, and it will be a big surprise if there isn't something in the nature of a small boom in Canada before another fall rolls around.

The U. S. economy has already started to drive forward. Our own is almost certain to follow.

For these reasons, it seems to me it is a good time to buy essential items. Government spending is likely to increase, and when it does it always causes a number of price increases in the process. I put in an order for a new typewriter on that theory, anyhow, so I am following my own advice. If I were a farmer and needed equipment badly, I'd do my darnedest to make the outlay now instead of later.

Good times, in the sense of a boom, aren't necessarily something to rave about unless, at the same time, governments refrain from going overboard on spending. Good times accepted too casually can create inflation that weakens the buying power of the dollar. This leads to the sad situation where pensioners and those on fixed incomes suffer while those who are earning larger incomes are having a hey-day.

Good times, too, are inclined to lead labor union leaders to start a round of huge wage demands. If these demands exceed the increase in productivity that brings about a boom, they soon kill the boom and cause a further and deeper depression.

Nevertheless, it is good to know there is still lots of steam in our economy and that with any kind of common sense we can take big steps ahead in the 60's.

Sad, though, that with the opportunities existing to build a more prosperous land, the threat of war may spoil it all. Mr. K., who is excused by the Pinkos for almost everything he does, cannot be excused for starting bomb testing again and threatening to terrorize the world.

### Cancer Society Shows Increased Income

The Crows Nest Pass Branch of the Canadian Cancer Society held its annual meeting in the Catholic Hall in Coleman on Thursday evening, November 9th, when a new slate of officers were elected to office.

The slate this year will comprise: President, Mrs. Helen Nedo; Honorary President, Mayor Frank Aboussafy, both of Coleman; First Vice-president, Mrs. D. Quintillo, of Bellevue; Second Vice-president, Clarence Weekes of Cowley; Secretary - treasurer, Mrs. Phyllis Jones of Coleman; Welfare chairman, Mrs. Nora Quintillo of Bellevue; Educational chairman, Vern Decoux of Blairmore; and Provincial Councillors, Helen Nedo, Phyllis Jones and Clarence Weekes.

A report presented at the meeting showed that the Cancer Crusade Income had this year increased to \$1736.33, which, on a per capita basis shows an increase of three cents per person.

Last year the per capita donation was 15c and this year it has

risen to 18c.  
 A break-down of contributions from the Pass district showed a general increase in most places, and comparing the 1960 donations with the 1961, shows that Beaver Mines was \$99.00, against \$140.00 the previous year; Bellevue showed \$179.75 in 1961 against \$230.00 in 1960; Blairmore jumped from \$180.59 in 1960 to \$487.70 in 1961; Burnis donations totalled \$9.00 against nil the previous year; Cowley-Lundbreck jumped from \$94.20 to \$135; Frank jumped from \$27.50 to \$94.50 in 1961; Hillcrest rose from \$105.10 to \$141.75; Maycroft jumped from nil to \$15.00, and Coleman rose slightly from \$377.40 to \$387.47.

A break-down of total income of \$1736.33 shows that the sum of \$1579.84 came from the local crusade, \$156.00 from memorial do-

nations, and the sum of \$41.48 as the local Chapter's share of the National Donation.

It was also reported at the meeting that there were 18 patients in the Pass district receiving welfare and that the sum of \$547.15 has been spent this year on Welfare.

A discussion was then held regarding the adoption of a new cancer slogan "To Cure More - Give More to the Cancer Society".

This slogan is being adopted by the American Cancer Society and the local group favored adopting the same slogan.

## Coleman Library Report

Up to date it is the juvenile readers who overwhelmingly dominate the scene on lending Thursday.

This happy fact, boding so well for the future, has prompted the board to confine its entire book-buying activities to the youth department, a policy bound to be continued in the immediate future.

All this does not mean, however, that our present and prospective adult readers are to be stinted.

Thanks to the amazing generosity of our donors, the senior section has been in a healthy condition from the very beginning. Both the fiction and non-fiction shelves are temptingly arrayed with some 1100 volumes ready to delight and inform readers of every taste and fancy. All we need there is more customers prepared to follow the simple set by the youngsters. We invite you to come and see for yourselves and discover what you are missing. And to tantalize you here's a fair sampling of what is in the store for you:

The Sixth of June—

The famed novel by Lionel Shapiro, that breath-takingly re-tells the story of the Normandy landings which spelled the beginning of the end of Nazi Germany. A nostalgic treat for those old enough to remember those stirring days, and a MUST for those to whom all this is no more than history. Dector Zhivago:

By Boris Pasternak. Called "a literary event of the first magnitude" A book which topped the best-sellers' list for years.

The City in the Dawn:

By Hervey Allen. Here's all the adventure, suspense and blood-curdling action of Indian war and the romance of pioneering settlement in the American West. A giant book and the best of its kind.

The Song of Bernadette:

By Franz Werfel. Here both the title and the name of the author speak for themselves.

Looking for Canadian writers? Here's—

Two Solitudes:

by Hugh McLennan and

The People of the Deer:

by Farley Mowat. A story set in the Canadian Rockies is found in exciting

Campbell's Kingdom:

by Hammond Innis.

Mystery fans have a wide choice in dozens of volumes by the who-done-it leaders in the field, and those who want facts rather than fiction can find a first-hand and authoritative account of the Second World War in

Crusade in Europe:

by Dwight Eisenhower. Another sample of non-fiction is the Populus Science series which tells the stores of

Our Earth, The Starry Universe,

etc.

Again, these are mere samples. Come in and see the real thing next Thursday from 4 to 8 p.m.

## Letters To The Editor

Oct. 21, 1961.

Mrs. Alice Hill,

care of Mrs. M. Dagnall,

34 Grassmere St. Leigh,

Lancashire, England.

Dear Mr. and Mrs.

Thomas Holstead:

I am renewing my subscription for The Coleman Journal again. I am enclosing \$3.00 as I have only dollar bills now. You know our money here is pounds, shillings and pence, but I am used to it. I would like to know if I owe you any more than \$2.50 for your Journal. If so keep the \$3.00 if that makes us right. Tell Mrs. Holstead I am fine and I am quite happy and comfortable with my daughter here so I don't think I shall come back to Canada. If I do I shall have to change my mind a lot.

If I owe you any more please put a little note in The Journal when you send it to me.

Hoping you and Mrs. Holstead are quite well. We all love to read The Journal, especially my daughter. She has never been in Canada.

So Cheerio,

Best of luck, wishing you both a Merry Christmas and a Prosperous New Year in 1962.

Excuse writing as I am a little shaky. I shall be 86 on November 8th.

A Cranbrook man complained that the taxi he ordered had not arrived.

The girl who took the call apologized: "I'm very sorry, sir, but don't worry. The plane is always late." "Well, it certainly will be this morning," said the caller, sharply. "I happen to be the pilot."

## X-actly

The following plea to employees, used with great effect by one manufacturing concern, would seem to be a "must" for the bulletin board and house organ of many another.

Headed: "You Are Important", it continues:

"When you are tempted to take a day off without notifying your manager, you think that the absence of one person won't make too much difference, you place your manager in the same position as a fellow trying to type with one key missing. He can make substitutions just as we have done, but the result is never the same as when he's working with the right people on the right jobs."

Touche!

An ancient law of India called for the widow to cremate herself on the funeral pyre of her husband.

In Siam, houses are constructed with odd numbers of floors and steps to insure good luck.
